RESIDENCY TRAINING PROGRAM

of the

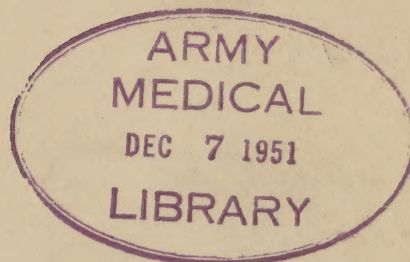

MEDICAL SERVICE

*U. S. Army.* BROOKE GENERAL HOSPITAL, *Fort Sam Houston, Tex.*

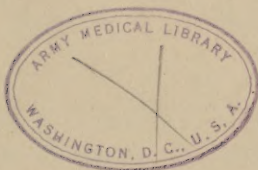

LECTURES, SEMINARS, AND DIAGNOSTIC CONFERENCES

JANUARY 1 THROUGH DECEMBER 31, 1949

Volume III

With Combined Index of  
Volume I - 1947  
Volume II - 1948  
and  
Volume III - 1949

## TEACHING STAFF

### A. Military

- \*\*Colonel John G. Knauer, MC - Chief of the Medical Service  
Major Lawrence M. Hursh, MC - Asst Chief of the Medical Service  
\*\*Colonel Thomas W. Mattingly, MC - Chief of the Cardiovascular Section  
1 January - 15 August 1949  
\*\*Colonel Richard P. Johnson, MC - Chief of the Cardiovascular Section  
7 December - 31 December 1949  
Lt. Colonel Augustus A. Hall, MC - Chief of the Gastroenterology Section  
\*\*\*Lt. Colonel Leo J. Geppert, MC - Chief of the Pediatric Section  
\*\*Lt. Colonel Walter R. Cook, MC - Chief of the Officers' General  
Medical Section  
Lt. Colonel Ronald F. Kirk, MC - Chief of the Women's General Medical  
Section  
13 February - 2 August 1949  
\*\*Lt. Colonel Warren H. Diessner, MC - Chief of the Women's General Medical  
Section  
8 September - 31 December 1949

### B. Civilian Consultants

- \*\*\*Dr. Russell J. Blattner  
\*\*Dr. William W. Bondurant  
\*\*Dr. Don W. Chapman  
\*Dr. Thomas H. Discker  
\*Dr. Chester W. Frazier  
\*\*Dr. James A. Greene  
\*\*\*Dr. Clifford Grulec  
\*\*Dr. George R. Herrmann  
\*\*\*Dr. Sidney R. Kaliski  
\*Dr. C. Ferd Lehmann  
\*\*Dr. Henry N. Leopold  
\*\*Dr. Robert G. McCorkle  
\*Dr. Columbus H. McCuistion  
\*Dr. J. Lewis Pipkin  
\*Dr. Duncan O. Poth  
\*Dr. Earl B. Ritchie  
\*\*Dr. David R. Sacks  
\*Dr. Arthur G. Schoch  
\*\*\*~~Dr.~~ Boen Swinny

### C. Residents

#### 1. Senior Residents

- ++Major W. H. R. Croskery  
+Lt. Colonel V. R. Hirschmann  
++Major C. J. Hornisher  
++Lt. Colonel T. E. Huber  
++Major L. M. Hursh  
++Major T. W. Innon  
++Lt. Colonel T. D. Johnson  
++Major H. E. Ratcliffe  
++Lt. Colonel J. L. Tobin  
+Lt. Colonel C. B. White

#### 2. Residents

- ++Lt. Colonel W. S. Bagnall  
++Capt R. W. Blohm  
+++Major B. I. Copple  
+++Capt. F. B. Graves  
+++Capt. H. L. Guard  
+Capt. W. E. Horn  
++Major T. S. Malinowski  
++Lt. Colonel E. K. Mills  
++Major K. D. Orr  
++Major L. F. Parnley  
+++Capt. A. C. Peat  
+Major J. J. Pope  
+Major V. R. Richmond  
++Capt. J. F. Staggs  
+Major U. L. Thron  
++Major W. H. Westbrook  
++Capt. W. C. Winter  
++Capt. R. D. Wright

- \*\*\*\* Diplomate of the American Board of Allergy  
\*\*\* Diplomate of the American Board of Pediatrics  
\*\* Diplomate of the American Board of Internal Medicine  
\* Diplomate of the American Board of Dermatology and Syphilology  
+++ Resident in Pediatrics  
++ Resident in Internal Medicine  
+ Resident in Dermatology and Syphilology

### 3. Assistant Residents

++Capt. E. M. Bralley

++Capt. D. G. Brooking

++Capt. W. J. Conroy

++Capt. H. M. Cook

++Capt. J. B. Crow

++Capt. R. D. Gamble

++Capt. G. E. Gifford

++Major G. H. Montgomery

++Capt. D. M. Torney

++Capt. M. G. Veal

++Capt. W. H. Wright

RESIDENCY TRAINING PROGRAM  
OF THE MEDICAL SERVICE  
BROOKE GENERAL HOSPITAL

LECTURES, SEMINARS, AND DIAGNOSTIC CONFERENCES\*  
JANUARY 1 THROUGH 31 DECEMBER, 1949

Medical Literature Review - 3 January 1949

Subject: Ayerza's Syndrome

Presentation: Major L. M. Hursh

Remarks: The symptomatology, diagnosis, incidence and physiology of Ayerza's syndrome were discussed.

Medical Staff Conference - 6 January 1949

Subject: The Serological Test for Syphilis

Presentation: Capt. J. A. Shiveley

Remarks: The newer methods of serological tests and various reliabilities were discussed.

Medical Diagnostic Conference - 8 January 1949

Case I - 427047 - Ward 8

Presentation: Lt. Col. T. E. Huber

Conference Diagnosis: The differential diagnoses discussed were:  
(1) polyneuritis, (2) hysteria, (3) vertebral subluxation, (4) occlusion of anterior spinal artery and (5) embolus to cord.

Case II - VA 14300 - Ward 21

Presentation: Major L. M. Hursh

Conference Diagnosis: The differential diagnoses discussed were:  
(1) epilepsy, (2) carotid sinus syndrome, (3) cirrhosis of the liver, and (4) hyperinsulinism.

Medical Staff Conference - 13 January 1949

Subject: Epilepsy

Presentation: Lt. Col. L. J. Geppert  
Lt. W. A. Spencer

Remarks: A review of the literature was presented along with 81 cases in our Pediatric Clinic and comparisons made. The point of emphasis was that if most idiopathic epilepsies are studied thoroughly and their past history carefully scrutinized, it is possible to find an organic explanation. A set routine was also described for investigating convulsions.

\* Does not include the regularly scheduled teaching ward rounds, autopsies, X-ray Conference, Clinico-pathologic Conference, Neuropsychiatric Conferences, Surgical Conferences, and other teaching programs, all of which are also a part of the Residency Training Program.

Medical Diagnostic Conference - 15 January 1949

Case I - VA 14950 - Ward 23

Presentation: Major C. J. Hornisher

Conference Diagnosis: The discussion involved the differential diagnoses of chronic cor pulmonale with secondary polycythemia and primary polycythemia.

Case II - 427911 - Ward 28

Presentation: Major T. W. Inmon

Demonstration of a case of thyroiditis.

Medical Literature Review - 17 January 1949

Subject: Cushing's Syndrome

Presentation: Lt. Col. W. S. Bagnall

Remarks: The speaker discussed primarily the physiology involved in the relationship of the adreno-cortical hormones. Fuller Albright's concept of the N and S hormones was also discussed.

Monthly Staff Conference - 18 January 1949

Subject: Scleroderma

Presentation: Dr. D. R. Sacks

Remarks: Two cases of scleroderma were presented along with slides and Kodachromes.

Medical Staff Conference - 20 January 1949

Subject: Gout

Presentation: Dr. H. N. Leopold

Remarks: This was a presentation of the history, clinical features, diagnosis, treatment and recent developments in the physiology of gout.

Special Lecture - 20 January 1949

Subject: The Etiology of the Common Cold

Presentation: Dr. Maurice Pollard

University of Texas, Medical Branch  
Galveston, Texas

Remarks: Along with the discussion of the etiology of the common cold Dr. Pollard gave a report of experimental treatments which were illustrated with slides.

Medical Diagnostic Conference - 22 January 1949

Case I - VA 14452 - Ward 26

Presentation: Lt. Col. T. E. Huber

Conference Diagnosis: Rheumatoid arthritis

Case II - 427049 - Ward 2

Presentation: Capt. R. D. Wright

Conference Diagnosis: Chronic glomerulonephritis

Medical Literature Review - 24 January 1949

Subject: Plumbism

Presentation: Major C. J. Hornisher

Remarks: This was a presentation of 2 cases of plumbism and a discussion of the history, etiology, symptomatology, laboratory findings and diagnosis of plumbism.

Medical Diagnostic Conference - 29 January 1949

Case I - VA 14960 - Ward 21

Presentation: Lt. Col. T. D. Johnson

Conference Diagnosis: The differential diagnoses consisted of rheumatic heart disease with multiple emboli to the periphery, arteriosclerosis and hypertension. Dr. Herrmann's diagnosis was rheumatic heart disease and pyelonephritis.

Case II - 427897 - Ward 28

Presentation: Major T. W. Inmon

Conference Diagnosis: Diabetes mellitus

Medical Staff Conference - 3 February 1949

Subject: Fibrous Dysplasia

Presentation: Lt. Col. A. J. Ackerman

Remarks: The speaker discussed the diagnosis of bone disease with multiple roentgenographic examples concerning particularly bone metabolism.

Medical Diagnostic Conference - 5 February 1949

Case I - VA 15072 - Ward 28

Presentation: Major T. W. Inmon

Conference Diagnosis: The differential diagnoses consisted of gastric carcinoma, peptic ulcer, and hemorrhage, site undetermined

Case II - 426627 - Ward 21

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: The differential diagnoses of appendiceal abscess, bacterial endocarditis, and bacteremia were discussed.

Medical Literature Review - 7 February 1949

Subject: Physiology of the Thyroid Gland

Presentation: Major T. W. Inmon

Remarks: The interrelationship of the hypothalamus, anterior pituitary and the thyroid, the eye and metabolism was discussed. The iodine paradox was also discussed along with mention in regard to alteration of thyroid metabolism with surgery, propyl thiouracil and iodine.

Medical Staff Conference - 10 February 1949

Subject: Hepatitis

Presentation: Major T. W. Inmon

Remarks: Viral hepatitis was discussed from the standpoint of public health, diagnosis, treatment and pathogenesis. The incidence and problem of infectious hepatitis in combat areas during the past war were also discussed.

Medical Diagnostic Conference - 12 February 1949

Case I - 428216 - Ward 9

Presentation: Major T. S. Malinowski

Conference Diagnosis: The differential diagnoses included chronic cholecystitis, infectious mononucleosis, and radiculitis.

Monthly Staff Conference - 15 February 1949

Subject: Practical Considerations in the Management of Diabetes

Presentation: Dr. Garfield C. Duncan

Director of Medical Division, Pennsylvania Hospital  
Clinical Professor of Medicine, Jefferson Medical College  
Philadelphia, Pennsylvania

Remarks: Dr. Duncan dealt with the practical aspects of diabetes considering the aspects often disregarded or misunderstood. Also progress in the management of diabetes was discussed.

Medical Staff Conference - 17 February 1949

Subject: Hepatitis

Presentation: Dr. Garfield C. Duncan

Remarks: The etiology, particularly from the standpoint of homologous serum jaundice being propagated in the hospital by puncture instruments, was discussed. Also the speaker emphasized the importance of the vacuolated lymphocytes as a diagnostic aid in ruling out obstructive jaundice or hepatocellular jaundice.

Medical Diagnostic Conference - 19 February 1949

Case I - 428199 - Ward 8

Presentation: Capt. R. D. Wright

Conference Diagnosis: Gastric ulcer

Follow-up Case

1. VA 11051 - Ward 40

Presentation: Major K. D. Orr

Conference Diagnosis: Carcinoma of the lung

Medical Staff Conference - 24 February 1949

Subject: Multiple Myeloma

Presentation: Major H. E. Ratcliffe

Remarks: The history, symptoms, laboratory findings, diagnosis, and treatment were discussed with some emphasis on the differential diagnosis between hyperparathyroidism and multiple myeloma.

Medical Diagnostic Conference - 26 February 1949

Case I - VA 14834 - Ward 21

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: Differential diagnosis included rheumatic fever and rheumatoid arthritis with secondary infection. The discussion centered around collagen disease (rheumatic fever, lupus, rheumatoid), pneumonia, tuberculosis, and pyogenic infection (meningo, pneumo, strepto).

Follow-up Case

1. 415595 - Ward 12

Presentation: Major B. I. Copple

Conference Diagnosis: Tuberculosis, upper lobe with cavitation

Medical Staff Conference - 3 March 1949

Subject: Cholecystitis and Cholelithiasis

Presentation: Capt. R. W. Blohm

Remarks: The pathology and embryology of the gall bladder were discussed. Also discussed were the theory of stone formation and the syndromes of the two diseases.

Medical Diagnostic Conference - 5 March 1949

Case I - VA 15282 - Ward 26

Presentation: Lt. Col. T. E. Huber

Conference Diagnosis: Septicemia, recurrent

Discussion of Bacteremia: Capt. J. F. Stagg

Medical Literature Review - 7 March 1949

Subject: Neurotropic Virus Disease

Presentation: Major T. S. Malinowski

Remarks: The encephalitides other than polio were discussed. Also some of the animal experimental work and the recent progress being made was brought out.

Medical Staff Conference - 10 March 1949

Subject: Constipation

Presentation: Major C. J. Hornisher

Remarks: The definition, normal variations and symptoms of constipation were presented along with causes including the psychic element. The treatment was also discussed.

Medical Diagnostic Conference - 12 March 1949

Case I - VA 15735 - Ward 25

Presentation: Capt. G. E. Horton

Conference Diagnosis: Banti's syndrome

Case II - 429398 - Ward 28

Presentation: Major T. W. Inmon

Conference Diagnosis: The differential diagnoses included aplastic anemia, aleukemic leukemia, anebic liver abscess and lymphosarcoma.

Medical Staff Conference - 17 March 1949

Subject: Emphysema

Presentation: Major W. H. Westbrook

Remarks: The discussion of this disease included the pathogenesis, physiology, recognition and treatment.

Medical Diagnostic Conference - 19 March 1949

Case I - 429613 - Ward 8

Presentation: Capt. R. D. Wright

Conference Diagnosis: Anorexia nervosa. Ulcerative colitis, psychoneurosis and Addison's disease were considered.

Case II - 428708 - Ward 8

Presentation: Capt. R. D. Wright

Conference Diagnosis: Diverticulosis and diverticulitis of the duodenum.

Medical Literature Review - 21 March 1949

Subject: Multiple Sclerosis

Presentation: Major W. H. R. Croskery

Remarks: The history, signs, symptoms and possible etiologies were discussed. A patient from Ward 37 was presented.

Medical Staff Conference - 24 March 1949

Subject: Bronchogenic Carcinoma

Presentation: Lt. Col. T. E. Huber

Remarks: The speaker presented statistics of frequency of symptoms, survival times with and without surgery and an x-ray demonstration of various types.

Medical Diagnostic Conference - 26 March 1949

Case I - VA 15228 - Ward 21

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: Rheumatic heart disease

Case II - VA 15947 1/2 - Ward 28

Presentation: Major T. W. Inmon

Conference Diagnosis: Hereditary hyperheparinemia

Medical Staff Conference - 31 March 1949

Subject: Endocrine Glands With Questionable Function

Presentation: Major H. E. Ratcliffe

Remarks: The speaker discussed the pineal and posterior pituitary glands and the kidney.

Medical Diagnostic Conference - 2 April 1949

Case I - VA 15780 - Ward 8

Presentation: Capt. R. D. Wright

Conference Diagnosis: Nutritional anemia

Case II - Podiatric Out Patient

Presentation: Lt. Col. L. J. Geppert

Conference Diagnosis: Possible allergic reaction set up by pertussis vaccine.

Medical Literature Review - 4 April 1949

Subject: Chemotherapy of Neoplastic Disease

Presentation: Capt. R. D. Wright

Remarks: Bacterial filtrates, antireticulocytotoxic serum, stilbamadine, urethane, nitrogen mustard, and folic acid derivatives were all discussed. The radioactive isotopes were not discussed.

Medical Staff Conference - 7 April 1949

Subject: Adaptation Syndrome

Presentation: Lt. Col. T. E. Huber

Remarks: The speaker discussed the work of Hans Selye on alarm reaction and how this produces disease.

Medical Diagnostic Conference - 9 April 1949

Case I - 429525 - Ward 28

Presentation: Major C. J. Hornisher

Conference Diagnosis: Pituitary tumor. Dr. Sacks also discussed the possibility of a peptic ulcer.

Case II - VA 16350 - Ward 28

Presentation: Major C. J. Hornisher

Demonstration case of gout

Medical Staff Conference - 14 April 1949

Subject: Headache

Presentation: Capt. J. F. Stagg

Remarks: The speaker presented a summary of the salient features of Wolff's book on Headache.

Medical Diagnostic Conference - 16 April 1949

Case I - VA 15688 - Ward 27

Presentation: Capt. E. M. Bralley

Conference Diagnosis: Lupus erythematosus disseminata

Follow-up Cases

1. 419105 - Ward 22

Presentation: Capt. E. M. Bralley

Diagnosis: Chemical poisoning

2. VA 12006 - Ward 29

Presentation: Major W. H. Westbrook

Diagnosis: Hereditary clubbing of fingers and toes. Psychogenic reaction, cardiorespiratory in type.

3. VA 12374 - Ward 26

Presentation: Lt. Col. T. E. Huber

Diagnosis: Hemochromatosis

4. VA 11358 - Ward 26

Presentation: Lt. Col. T. E. Huber

Diagnosis: Panuveitis, alopecia, central deafness

5. VA 12393 - Ward 23

Presentation: Major T. W. Inmon

Diagnosis: Cholelithiasis and possible amebic liver disease

Medical Literature Review - 18 April 1949

Subject: The Application of Physical Medicine

Presentation: Lt. Col. J. E. Tate

Remarks: The use of physical medicine in rehabilitation after serious illness as well as its use in aid to diagnosis was discussed. Its use in geriatrics was also indicated.

Special Program - 18 April 1949

Subject: Lupus Erythematosus Disseminata

Presentation: Lt. Col. C. H. White

Lt. Col. W. R. Cook

Major T. W. Inmon

Remarks: The demonstration consisted of 2 cases of lupus erythematosus disseminata in young white males. One case was an outpatient from 370th Station Hospital, Lackland A. F. B. The other case was 427820 from Ward 40, Brooke General Hospital.

Monthly Staff Conference - 19 April 1949

Subject: Bullis Fever

Presentation: Col. J. C. Woodland

Remarks: The early work done here at Brooke General Hospital was considered in every detail. Much discussion centered about the question: Is Bullis fever an entity?

Medical Staff Conference - 21 April 1949

Subject: Report of Professional Program

Presentation: Col. J. G. Knauer

Remarks: The high lights of 20 papers presented at the Assembly of the American College of Physicians were discussed.

Medical Diagnostic Conference - 23 April 1949

Case I - VA 16407 - Ward 21

Presentation: Major W. H. R. Croskery

Conference Diagnosis: Rheumatic heart disease with mitral and tricuspid involvement with subacute bacterial endocarditis.

Follow-up Cases

1. 416188 - Ward 8

Presentation: Capt. R. W. Holliday

Diagnosis: Anemia due to iron deficiency

2. 414761 - Ward 40

Presentation: Major H. E. Ratcliffe

Diagnosis: Hemolytic jaundice

3. 416756 - Ward 22

Presentation: Capt. E. M. Bralley

Diagnosis: Tuberculous peritonitis

4. VA 11371 - Ward 23

Presentation: Capt. E. M. Bralley

Diagnosis: Carcinoma of the colon

5. 416997 - Ward 22

Presentation: Major T. W. Inmon

Diagnosis: Fever of unknown origin, possible amebic hepatitis.

Medical Staff Conference - 28 April 1949

Subject: Collapse Therapy of Pulmonary Diseases

Presentation: Dr. Robert G. McCorkle

Remarks: The indications and contraindications of pneumoperitoneum were presented. This procedure was then compared with pneumothorax.

Medical Diagnostic Conference - 30 April 1949

Case I - 427557 - Ward 5

Presentation: Major T. S. Malinowski

Conference Diagnosis: Possible Hodgkin's disease

Presentation of Dermatology Cases by Lt. Col. C. B. White

All cases from Ward 60-B

1. 432267 - Lupus vulgaris
2. 421320 - Lupus erythematosus, discoid type
3. 432538 - Lupus erythematosus, discoid type
4. 431091 - Morphea
5. 432481 - Generalized dermatophytosis
6. 432663 - Bullous erythema multiforme
7. 432694 - Dermatophytosis with Id generalized

Monthly Staff Conference - 3 May 1949

Subject: Carcinoma of the Stomach

Presentation: Dr. B. R. Kirkland

Mayo Clinic

Remarks: Dr. Kirkland talked from slides demonstrating x-ray lesions emphasizing the meniscus sign with halo.

Medical Diagnostic Conference - 7 May 1949

Case I - 430608 - Ward 5

Presentation: Major L. F. Parmley

Conference Diagnosis: Possible sarcoid. Also considered were bronchiectatic cavities and chronic fibrotic lung disease secondary to repeated infection.

Case II - 430174 - Ward 5

Presentation: Major L. F. Parmley

Demonstration case of subacute bacterial endocarditis

Medical Literature Review - 9 May 1949

Subject: Cardiology

Presentation: Dr. Reno R. Porter

Assistant Professor of Medicine

Medical College of Virginia

Remarks: Dr. Porter discussed the treatment of the complications of coronary thrombosis.

Medical Staff Conference - 12 May 1949

Subject: Management of Acyanotic Congenital Heart Disease

Presentation: Dr. Reno R. Porter

Remarks: Dr. Porter discussed the differential diagnoses of coarctation of the aorta, atrial septal defect, patent ductus, ventricular septal defect, subaortic stenosis and Lutembacher's syndrome.

Medical Diagnostic Conference - 14 May 1949

Case I - VA 15934 - Ward 29

Presentation: Capt. R. W. Holliday

Conference Diagnosis: Subacute combined degeneration of central nervous system. Pernicious anemia was also considered.

Case II - 432682 - Enforced Treatment Ward

Presentation: Capt. W. K. Hamilton

Demonstration case of alkaptonuria

Medical Literature Review - 16 May 1949

Subject: Films shown

1. The Role of Gastrosocopy in the Diagnosis and Treatment of Gastric Pathology - from Horrower Laboratories
2. Vagotomy for Duodenal Ulcer - PMF 5064
3. Human Small Intestine - Study on Motility - PMF 5095

Medical Staff Conference - 19 May 1949

Subject: Cardiac Catheterization

Presentation: Col. T. W. Mattingly

Remarks: The discussion included history, method, indications, dangers and information that can be obtained.

Medical Diagnostic Conference - 21 May 1949

Case I - Out Patient - Cardiac Clinic

Presentation: Capt. W. K. Hamilton

Conference Diagnosis: Acrosclerosis with Raynaud's disease

Follow-up Cases

1. VA 11531 - Ward 23

Presentation: Capt. G. E. Horton

Diagnosis: Anemia, hypochromic

2. 416093 - Ward 23

Presentation: Capt. G. E. Horton

Diagnosis: Brucellosis

3. 416997 - Ward 23

Presentation: Major T. W. Inmon

Diagnosis: Undiagnosed lesion of duodenum

4. 417931 - Ward 23

Presentation: Major C. J. Hornisher

Diagnosis: Hoarseness

Medical Staff Conference - 26 May 1949

Subject: Protein Metabolism

Presentation: Major B. I. Copple

Remarks: Nitrogen balance and its importance as well as intravenous protein substances were the main points of discussion.

Medical Diagnostic Conference - 28 May 1949

Case I - VA 16300 - Ward 25

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: The differential diagnoses included aplastic anemia, Laennec's cirrhosis following chronic hepatitis and hypersplenism. Infectious hepatitis was also discussed as a possibility. Dr. Sacks and Dr. Herrmann recommended ligation of the splenic artery.

Case II - 430578 - Ward 5

Presentation: Capt. R. W. Blohm

Diagnosis: Esophageal stricture. The various methods of therapy were discussed for esophageal stricture.

Medical Staff Conference - 2 June 1949

Subject: Diseases of the Adrenal Gland

Presentation: Lt. Col. J. L. Tobin

Remarks: The development and function of the adrenal gland were discussed along with the physiology and diseases of the gland.

Medical Diagnostic Conference - 4 June 1949

Case I - 433217 - Ward 26

Presentation: Major K. D. Orr

Conference Diagnosis: In general it was agreed that the patient had filariasis in 1943 and that this was now burned out. It was also generally agreed that his fever was due to oral hyperthermia. However, because of the palpable liver and history of hepatitis it was felt that amebiasis should be excluded.

Case II - VA 16699 - Ward 27

Presentation: Capt. E. M. Bralley

Conference Diagnosis: In general the lung findings were thought to be due to an old tuberculosis. However, bronchogenic carcinoma was not definitely ruled out and neither was cirrhosis, cardiac disease nor cerebral metastases.

Medical Staff Conference - 9 June 1949

Subject: Glomerulonephritis

Presentation: Major L. F. Parmley

Remarks: The pathology and course of the disease were discussed along with the newer concepts of low protein diet in acute phases.

Medical Diagnostic Conference - 11 June 1949

Case I - 433950 - Ward 22

Presentation: Lt. Col. J. L. Tobin

Conference Diagnosis: The various possible diagnoses such as periarteritis nodosa, lymphoma, leukemia, Mikulicz's syndrome, lues, tuberculosis, Reiter's syndrome were all considered. The majority concurred in the diagnosis of sarcoid.

Case II - 433904 - Ward 4

Presentation: Major L. F. Parmley

Conference Diagnosis: Osteogenesis imperfecta in mother and son.

Medical Staff Conference - 16 June 1949

Subject: Cardiac Catheterization

Presentation: Dr. Don W. Chapman

Baylor University, College of Medicine  
Houston, Texas

Remarks: Dr. Chapman presented a series of cases of congenital hearts and pointed out how catheterization aided in the diagnosis. He also commented on the treatment.

Medical Diagnostic Conference - 18 June 1949

Case I - 434213 - Ward 4

Presentation: Capt. W. C. Winter

Conference Diagnosis: The discussion centered about carcinoma of the thyroid, thyroiditis and hyper vs hypothyroidism.

Case II - 429613 - Ward 4

Presentation: Major L. F. Parmley

Diagnosis: Possible anorexia nervosa. The Cutler-Wilder test definitely ruled out the possibility of Addison's disease.

Medical Literature Review - 20 June 1949

Subject: Hypothyroidism

Presentation: Lt. Col. E. K. Mills

Remarks: Col. Mills emphasized the difficulty in recognizing the mild hypothyroid. One case from our own clinic was presented.

Medical Staff Conference - 23 June 1949

Subject: Hyperinsulinism

Presentation: Major L. M. Hursh

Remarks: The classification, symptoms and therapy of the various types of hyperinsulinism were discussed. The differential diagnosis was commented on only briefly.

Medical Diagnostic Conference - 25 June 1949

Case I - 431672 - Ward 4

Presentation: Capt. W. C. Winter

Conference Diagnosis: The diagnosis centered around neoplasm with metastases of which the primary site was unknown. The possible sites suspected were pancreatic or biliary system and lung. The pathological diagnosis was metastatic melanoma.

Case II - Follow-up Case

1. VA 17401 - Ward 21

Presentation: Capt. R. D. Wright

Diagnosis: Pathological diagnosis revealed a heart of 675 gm, moderately thickened endocardium and a mural thrombi. No definite coronary occlusion and the valves were not significantly thickened.

Medical Literature Review - 27 June 1949

Subject: Renal Function and Disease

Presentation: Lt. Col. W. R. Cook

Remarks: Col. Cook discussed renal function in health emphasizing renal filtration, renal flow and tubular function. Considerable time was spent on the discussion of urea clearance and similar tests. The talk was followed by a movie (Page and Corcoran).

Medical Staff Conference - 30 June 1949

Subject: Salicylate Intoxication

Presentation: Capt. H. L. Guard

Remarks: The subject was discussed and 2 cases (one fatal and one recovery) were presented.

Medical Diagnostic Conference - 2 July 1949

Case I - 434227 - Ward 40

Presentation: Major W. H. Westbrook

Conference Diagnosis: Major Ratcliffe's impression was that this patient probably had a neurological disease while Capt. Stagg felt that it was possibly on the basis of coronary insufficiency. All agreed, including Dr. Sacks, and Dr. Herrmann, that the patient was a hypothyroid.

Case II - 426627 - Ward 21

Presentation: Major W. H. R. Croskery

Conference Diagnosis: Subacute bacterial endocarditis. Dr. Herrmann commented on the criteria of the diagnosis of subacute bacterial endocarditis, which included murmurs, fever, embolic phenomenon and previous cardiac history.

Medical Staff Conference - 14 July 1949

Subject: Poliomyelitis

Presentation: Capt. A. C. Peat

Remarks: The discussion centered around the management of the acute stage of poliomyelitis including a survey of all the polio cases treated here at Brooke General Hospital in the past two years.

Medical Diagnostic Conference - 16 July 1949

Case I - VA 17558 - Ward 22

Presentation: Major G. H. Montgomery

Conference Diagnosis: Everyone present agreed that the diagnosis was an acquired syphilis but the possibility of carcinoma of the bronchus was not definitely ruled out nor was the possibility of a luetic lung disease. Some felt that this was congenital lues.

Case II - 432666 - Ward 4

Presentation: Capt. W. C. Winter

Conference Diagnosis: This patient had a pancytopenia following the use of mesantoin for epilepsy with a fatal outcome.

Medical Literature Review - 18 July 1949

Subject: Brucellosis

Presentation: Lt. Col. E. K. Mills

Remarks: The discussion included the difficulty in recognizing mild chronic cases of brucellosis and the methods of attempting to establish the diagnosis.

Medical Staff Conference - 21 July 1949

Subject: Pyelonephritis

Presentation: Capt. E. M. Bralley

Remarks: The speaker discussed the etiology, clinical course, diagnosis and therapy of pyelonephritis.

Medical Diagnostic Conference - 23 July 1949

Case I - VA 17248 - Ward 26

Presentation: Capt. R. D. Gamble

Conference Diagnosis: Fever of undetermined origin. The following possibilities as the cause of the fever were discussed: amebiasis, brucellosis, relapsing fever, malaria, infectious mononucleosis in chronic phase, fungus, neoplasia, lymphopathia venereum and virus infection.

Case II - VA 17588 - Ward 26

Presentation: Major K. D. Orr

Conference Diagnosis: Klebsiella pneumoniae

Medical Staff Conference - 28 July 1949

Subject: Uremia

Presentation: Lt. Col. T. D. Johnson

Remarks: This paper included a discussion of both renal and extra-renal causes of uremia, the diagnosis and newer concepts of therapy including the artificial kidney.

Medical Diagnostic Conference - 30 July 1949

Case I - 435496 - Ward 28

Presentation: Lt. Col. E. K. Mills

Conference Diagnosis: Sickle cell anemia. Major Ackeroyd gave a demonstration of sickling.

Follow-up Cases:

1. 416670 - Ward 27

Presentation: Capt. E. M. Bralley

Diagnosis: Hodgkin's disease

2. 420110 - Ward 27

Presentation: Capt. E. M. Bralley

Diagnosis: Rheumatoid arthritis

Medical Literature Review - 1 August 1949

Subject: Film - Management of the Failing Heart  
From Cornell Medical School

Medical Staff Conference - 4 August 1949

Subject: Relapsing Fever

Presentation: Colonel Hardy A. Kemp  
Baylor University, School of Medicine  
Houston, Texas

Remarks: The epidemiology of relapsing fever was discussed as it occurs in the Southwest, U. S. A.

Medical Diagnostic Conference - 6 August 1949

Case I - VA 18044 - Ward 26

Presentation: Capt. R. D. Gamble

Conference Diagnosis: Weil's disease

Presentation of Cases from the Dermatology-Syphilology Section

1. 436045 - Dermatitis herpetiformis

2. 436957 - Contact dermatitis from penicillin eye ointment

3. 436693 - Lichen planus

4. 432538 - Lupus erythematosus, discoid

5. VA 18099 - Lymphogranuloma venereum

6. 436691 - Syphilis secondary

Presentation: Capt. J. E. Gifford

Medical Staff Conference - 11 August 1949

Subject: Progress in Antibiotics

Presentation: Major K. D. Orr

Remarks: This paper included a discussion of such drugs as penicillin, streptomycin, bacitracin, aureomycin, chloromycetin, etc, with indications for use, toxic manifestations and dosage schedules.

Medical Diagnostic Conference - 13 August 1949

Case I - 434342 - Ward 28

Presentation: Lt. Col. E. K. Mills

Conference Diagnosis: 1. Abdominal Hodgkin's disease  
2. Tuberculous peritoneum

Case II - 433950 - Ward 22

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: Periarteritis nodosa

Medical Literature Review - 15 August 1949

Subject: Calcium and Phosphorus Metabolism

Presentation: Lt. Col. W. S. Bagnall

Remarks: A summary of Fuller Albright's recent book on parathyroid glands and metabolic bone disease was presented.

Medical Staff Conference - 18 August 1949

Subject: Fat Metabolism

Presentation: Capt. H. L. Guard

Remarks: This paper included the discussion of such disease syndromes as Gaucher's, Hans Schuller-Christian syndrome, xanthomatosis, etc.

Medical Diagnostic Conference - 20 August 1949

Case I - VA 18079 - Ward 24

Presentation: Capt. H. M. Cook

Conference Diagnosis: Anaphylactoid purpura

Case II - 435792 - Ward 22

Presentation: Major G. H. Montgomery

Conference Diagnosis: Reiter's disease

Case III - 434641 - Ward 24

Presentation: Capt. H. M. Cook

Diagnosis: Reiter's disease

Medical Staff Conference - 25 August 1949

Subject: Periatric Hematology

Presentation: Major B. I. Copple

Remarks: The lecture consisted of a discussion of the common cause of anemia in infants such as infection, "mild fed" babies, etc. Rh was only mentioned. The congenital hemolytic, sickle cell, and megaloblastic types were discussed more fully.

Medical Diagnostic Conference - 27 August 1949

Case I - 438015 - Ward 7

Presentation: Major K. D. Orr

Conference Diagnosis: Liver abscess with sinus tract

Case II - 432974 - Ward 31

Presentation: Capt. A. C. Peat

Conference Diagnosis: Sixty percent of the members present believed the diagnosis to be renal rickets with secondary hyperparathyroidism and 40% believed the diagnosis to be renal rickets with primary hyperparathyroidism.

Case III - 437186 - Ward 22

Presentation: Major G. H. Montgomery

Conference Diagnosis: Liver abscess

Case IV - 437408 - Ward 25

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: Hepatitis

Medical Staff Conference - 1 September 1949

Subject: Porphyrin

Presentation: Capt. W. C. Winter

Remarks: The chemistry was reviewed and the clinical syndrome described. Emphasis was placed on having an awareness of the disease when a surgical abdomen is suspected.

Medical Diagnostic Conference - 3 September 1949

Case I - 437318 - Ward 40

Presentation: Capt. J. F. Staggs

Conference Diagnosis: The differential diagnoses included: (1) Chronic pseudo tumors of the orbit, (2) Echinococcus cysts, (3) Mulvaney's syndrome, (4) Pseudohypertrophy of extra-ocular muscles, (5) Chromophobe adenoma, (6) Craniopharyngioma, (7) Basophilic adenoma, (8) Eosinophilic adenoma, (9) Vascular accident, (10) Non-thyroid, non-pituitary, lid edema. The majority felt that pseudohypertrophy of extra-ocular muscles was the correct diagnosis.

Case II - 438376 - Ward 60-B

Presentation: Capt. F. L. Swift

Conference Diagnosis: Scurvy

Case III - 438259 - Ward 60-B

Presentation: Capt. H. L. Guard

Conference Diagnosis: Congenital cerebral aneurysm

Medical Staff Conference - 8 September 1949

Subject: Presentation of Films

PMF 5036 The Mechanism of Cell Division - 27 Min.

PMF 5045 The Disorders of the Vestibular System - 18 Min.

PMF 5110 Radioactivity - 17 Min.

Medical Diagnostic Conference - 10 September 1949

Case I - 437881 - Ward 25

Presentation: Major K. D. Orr

Conference Diagnosis: The differential diagnosis included: (1) Chronic relapsing pancreatitis, (2) Meckel's diverticulum, (3) Inflamed urachus, (4) Abdominal epilepsy, (5) Lymphoma, (6) Small bowel tumor. The majority of the members present voted in favor of chronic relapsing pancreatitis.

Case II - 432356 - Ward 28

Presentation: Lt. Col. E. K. Mills

Conference Diagnosis: Hypothyroidism

Case III - 157348 - Ward 61-B

Presentation: Capt. G. E. Gifford

Conference Diagnosis: Dermatitis medicamentosa

Case IV - 438432 - Ward 61-B

Presentation: Capt. G. E. Gifford

Conference Diagnosis: Atopic dermatitis

Medical Staff Conference - 15 September 1949

Subject: Menopause and Estrogen Therapy

Presentation: Dr. S. Foster Moore

Remarks: A practical approach toward the menopause was presented along with a discussion of the proper place of hormone therapy.

Medical Diagnostic Conference - 17 September 1949

Case I - 427320 - Ward 4

Presentation: Capt. W. C. Winter

Conference Diagnosis: The following diagnoses were considered: (1) Porphyria, (2) Hyperostosis frontalis interna, (3) Simmond's disease, (4) Addison's disease, (5) Myasthenia gravis, (6) Multiple sclerosis. The majority of the members present felt that porphyria was the correct diagnosis.

Case II - VA 18639 - Ward 23

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: Liver disease and gall bladder disease with clubbing of the fingers.

Medical Literature Review - 19 September 1949

Subject: Hyperthyroidism

Presentation: Major C. J. Hornisher

Remarks: The entire paper consisted of a discussion of therapy including the pros and cons for surgery, thiouracil drugs, lugols, and radioactive isotopes.

Monthly Staff Conference - 20 September 1949

Subject: Current Indications For Antibiotic Therapy

Presentation: Major E. J. Pulaski

Remarks: Major Pulaski discussed all the antibiotics and the diseases in which each was most effective.

Medical Staff Conference - 22 September 1949

Subject: Coagulation Mechanism

Presentation: Major G. H. Montgomery

Remarks: The standard concept of the coagulation mechanism was presented as well as some of the newer ideas including Factor V, etc. Dr. S. E. Moolten's ideas also were included in the discussion.

Medical Diagnostic Conference - 24 September 1949

Case I - 437407 - Ward 5

Presentation: Capt. M. G. Veal

Conference Diagnosis: The differential diagnosis consisted of:  
(1) Lupus erythematosus, (2) Periarteritis nodosa, (3) Ulcerative colitis, (4) Amebic colitis, (5) Stevens-Johnson syndrome, (6) Histoplasmosis, (7) Allergy, (8) Emotional instability with dietary deficiency, (9) Regional ileitis, (10) Diffuse vascular disease. Most of the members present considered lupus erythematosus to be the correct diagnosis.

Case II - VA 18860 - Ward 25

Presentation: Major K. D. Orr

Conference Diagnosis: Carcinoma of the sigmoid with metastases to the liver.

Medical Staff Conference - 29 September 1949

Subject: Bedside Psychiatry

Presentation: Colonel Rawley E. Chambers

Remarks: Patient maturity and doctor maturity and their relationship to each other were discussed and their importance stressed.

Medical Diagnostic Conference - 1 October 1949

Case I - VA 18796 - Ward 23

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: The differential diagnosis was between primary and secondary polycythemia vera. The majority felt that it was primary.

Case II - 439063 - Ward 5

Presentation: Capt. R. D. Wright

Conference Diagnosis: Acute Myelogenous leukemia

Medical Literature Review - 3 October 1949

Subject: Current Therapy in Gastrointestinal Diseases

Presentation: Capt. R. D. Gamble

Remarks: The therapy discussed was mainly therapy for peptic ulcer, cirrhosis of the liver, ulcerative colitis, amebic dysentery and gastroenteritis.

Medical Staff Conference - 6 October 1949

Subject: Pancreatic Diseases

Presentation: Capt. R. D. Wright

Remarks: The diseases discussed mainly were pancreatitis and carcinoma. The relationship of chronic pancreatitis to diabetes and also the relationship of thrombosis to carcinoma was stated.

Medical Diagnostic Conference - 8 October 1949

Case I - VA 18472 - Ward 23

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: Most of the persons present felt that the patient had regional enteritis. The differential diagnosis consisted of: regional enteritis, irritable colon, tuberculous colitis, amebic colitis, ulcerative colitis, and granuloma of the bowel.

Case II - 439794 - Ward 22

Presentation: Capt. J. B. Crow

Conference Diagnosis: Myotonia congenita

Case III - 440215 - Ward 60-B

Presentation: Capt. G. W. Brooking

Diagnosis: Favus

Medical Staff Conference - 13 October 1949

Subject: Fundamentals of Neurology

Presentation: Dr. Melvin Thorner

Remarks: The electroencephalogram and the new phenomena of altering the X waves with certain frequencies of stroboscopic light and thus producing changes in the mood both pleasant and unpleasant depending upon the frequency were discussed.

Medical Diagnostic Conference - 15 October 1949

Case I - 439457 - Ward 37

Presentation: Lt. Col. T. D. Johnson

Conference Diagnosis: The differential diagnosis consisted of: Amyotrophic lateral sclerosis, syringomyelia, cervical cord tumor, syphilis, neuralgia of brachial plexus, superior sulcus tumor, old polio, peripheral neuritis, scalenus anticus, hypertension and hyperextension syndrome. There was considerable discussion on the difference between atrophy and dystrophy. None of the above diagnoses could be named as the most probable.

Case II - VA 18819 - Ward 28

Presentation: Major W. H. Westbrook

Conference Diagnosis: Lymphosarcoma and hemolytic anemia

Case III - VA 19082 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Pemphigus vulgaris and rheumatoid arthritis

Medical Literature Review - 17 October 1949

Subject: Current Therapy in Metabolic Diseases

Presentation: Lt. Col. E. K. Mills

Remarks: The hour was spent almost entirely on the discussion of the therapy of diabetes. The discussion included the various types of insulin, diets, etc.

Medical Staff Conference - 20 October 1949

Subject: Hodgkin's disease and Nitrogen Mustard Therapy

Presentation: Major K. D. Orr

Remarks: Hodgkin's disease and its relation to giant follicular lymphoblastoma and lymphosarcoma was discussed. Symptoms and signs in order of frequency were stated. The history of nitrogen mustard therapy, technique, and present day concept in relation to pathological changes were presented.

Medical Diagnostic Conference - 22 October 1949

Case I - 439635 - Ward 28

Presentation: Major W. H. Westbrook

Conference Diagnosis: The differential diagnosis consisted of (1) Capt. Wright: Primary retroperitoneal tumor, possibly Hodgkin's, (2) Capt. Blohm: Retroperitoneal tumor, possibly lymphoma, (3) Dr. Sacks: Non-malignant, not retroperitoneal, cystic tumor, (4) Dr. Herrmann: Unlikely A.V. fistula, probably infectious inflammation of lymph gland, (5) Surgical Diagnosis: Aneurysm of right common iliac vein which was thrombosed with the spermatic vein running through the aneurysm.

Follow-up Cases:

1. VA 13788 - Ward 21

Presentation: Major K. D. Orr

Diagnosis: Enlargement of the heart and fibrosis of myocardium

2. 421744 - Ward 21

Presentation: Capt. R. D. Wright

Diagnosis: Arteriosclerotic heart disease with hypertension

3. 421279 - Ward 23

Presentation: Major T. W. Inmon

Diagnosis: Subacute bacterial endocarditis

Monthly Staff Conference - 25 October 1949

Subject: Diagnostic Errors Caused by Metastatic Tumors

Presentation: Dr. Rupert A. Willis

Professor of Human and Comparative Pathology  
Pathologist to the Royal Cancer Hospital  
London, England

Remarks: A number of cases were presented in which the symptoms and signs were due to metastatic tumors although neither the tumor nor the metastasis was suspected.

**Medical Staff Conference - 27 October 1949**

**Subject:** Embryological Principles in Pathology

**Presentation:** Dr. Rupert A. Willis

**Remarks:** Dr. Willis demonstrated how embryonic tissue prior to the development of the blastopore could develop into tissue of any type; but that after the blastopore appeared the tissues develop into their respective types.

**Special Lecture - 31 October 1949**

**Subject:** Malaria: Recent Studies of the British Army Concerning Therapy

**Presentation:** Lt. Col. Ambrose Meneces

Reader in Tropical Medicine

Royal Army Medical Corps

London, England

**Remarks:** Emphasis was placed on the extraerythrocytic cycle of malaria which takes place primarily in the hepatic cells, thus explaining somewhat the difficulty of obtaining a cure with drugs.

**Special Program - 2 November 1949**

**Case Presentation - S. H. - Age 13 years**

**Presentation:** Capt. A. C. Peat

**Discussion :** Dr. Charles McKhann

Director of Pediatrics, Babies and Childrens Hospital

Western Reserve University, School of Medicine

Cleveland, Ohio

**Diagnosis:** Albright-Butler syndrome

**Medical Staff Conference - 3 November 1949**

**Subject:** Diseases of the Eye in Relation to Internal Medicine

**Presentation:** Colonel E. M. Altfather

**Remarks:** The speaker discussed the most common causes for referral of patients to the eye clinic which included refractions, conjunctivitis, fundusoscopic examination, etc., and their relationship to systemic disease.

**Special Conference - 3 November 1949**

**Subject:** Newer Approaches in the Treatment of Mental Retardation, Convulsive Disorders and Cerebral Spasticity

**Presentation:** Dr. Charles F. McKhann

**Remarks:** Dr. McKhann presented a new concept of how apparently dormant nervous tissue could become functional by increasing the blood supply by making a 3-4 mm anastomosis of the right carotid artery to the jugular vein. He also presented the results of 106 cases including morons and cerebrovascular accidents.

**Medical Diagnostic Conference - 5 November 1949**

**Case I - 440843 - Ward 26**

**Presentation:** Major H. E. Ratcliffe

**Conference Diagnosis:** The majority of the members present felt that the diagnosis was meningococcemia. Other considerations were: erythema multiforme exudativum, sulfa reaction, septicemia, Weil's disease and rickettsial disease.

Case II - 440376 - Ward 31

Presentation: Major W. H. Westbrook

Conference Diagnosis: Pituitary tumor with secondary thyrotoxicosis

Case III - VA 18472 - Ward 23

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: Tuberculous colitis

Medical Literature Review - 7 November 1949

Subject: Current Therapy in Chronic Chest Diseases

Presentation: Capt. R. W. Blohm

Remarks: Current therapy for conditions discussed included tuberculosis, bronchiectasis, asthma, and emphysema.

Medical Staff Conference - 10 November 1949

Subject: Geriatrics

Presentation: Capt. W. J. Conroy

Remarks: The whole field of geriatrics was presented. The fact that people are now living longer and that there is an ever increasing number of old people was basis enough for the increasing importance of this field of medicine.

Medical Diagnostic Conference - 12 November 1949

Case I - 437371 - Ward 5

Presentation: Lt. Col. E. K. Mills

Conference Diagnosis: The differential diagnosis included tuberculosis, brucellosis, acne, lymphoma, hyperparathyroid, cholelithiasis and adrenal insufficiency. There was considerable difference of opinion as to whether this patient had adrenal insufficiency. Dr. Sacks felt that she possibly had "Hans Selye" phenomena of adaptation syndrome.

Case II - VA 18819 - Ward 28

Presentation: Major W. H. Westbrook

Conference Diagnosis: Lymphosarcoma

Monthly Staff Conference - 22 November 1949

Subject: Diseases of the Adrenal Cortex in Infancy and Childhood

Presentation: Lt. Col. L. J. Geppert

Remarks: The diseases caused by an imbalance of water and electrolyte, "N" and "S" hormones were discussed in great detail. The speaker then presented a case of hypoplasia of the adrenal cortex.

Medical Staff Conference - 17 November 1949

Subject: Sarcoidosis

Presentation: Lt. Col. T. D. Johnson

Remarks: The history, clinical picture and difficulty in diagnosis of sarcoidosis were presented and then followed up with a review of the cases from our own hospital.

Medical Diagnostic Conference - 19 November 1949

Case I - 438413 - Ward 40

Presentation: Lt. Col. W. R. Cook

Conference Diagnosis: Most of the members present felt that the patient had anorexia nervosa. Dr. Sacks offered no diagnosis. Col. Knauer felt that the blow on his head was the initiating factor in this illness. Other possibilities included Simmond's disease, Addison's disease and carcinoma.

Case II - 441465 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Plantar warts treated with chloromycetin with dramatic disappearance of the warts.

Medical Literature Review - 21 November 1949

Subject: Current Therapy in Cardiovascular Diseases

Presentation: Capt. W. C. Winter

Remarks: This discussion included many of the standard drugs and also some of the newer ones about which there is still much debate.

Medical Diagnostic Conference - 26 November 1949

Case I - VA 19559 - Ward 23

Presentation: Lt. Col. W. S. Bagnall

Conference Diagnosis: The majority of the members felt that malnutrition was the main diagnosis. Other diagnoses considered were: pernicious anemia, sprue, liver disease, hypothyroid, carcinoma of the stomach and achrestic anemia.

Case II - 441465 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Plantar warts treated with chloromycetin with good response. Follow-up of previously presented case.

Case III - 441772 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Warts of the hands treated with chloromycetin with poor response.

Case IV - 441846 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Discoid lupus

Case V - 442071 - Ward 60-B

Presentation: Capt. D. G. Brooking

Conference Diagnosis: Discoid lupus

Medical Staff Conference - 1 December 1949

Subject: Management and Treatment of Asthma

Presentation: Dr. Boen Swinny

Remarks: The practical aspects of the management of asthma were presented as well as a theoretical discussion of the etiology stressing the multiplicity of factors often required to produce an attack such as: heredity, acquired sensitivity, superimposed infections and psychic trauma.

Medical Diagnostic Conference - 3 December 1949

Case I - 442175 - Ward 26

Presentation: Major H. E. Ratcliffe

Conference Diagnosis: The differential diagnosis consisted of: malaria, sickle cell anemia, paroxysmal nocturnal hemoglobinuria, Donath-Landsteiner syndrome, familial hemolytic anemia and acquired hemolytic anemia. There was a difference of opinion as to whether hypersplenism existed. Col. Johnson contended that by the Doan and Dameshek criteria he did not have hypersplenism. Dr. Sacks contended that hypersplenism does exist and recommended splenectomy at first downward trend.

Case II - VA 19119 - Ward 37

Presentation: Major C. J. Hornisher

Conference Diagnosis: Multiple sclerosis

Case III - VA 14309 1/2 - Ward 37

Presentation: Major C. J. Hornisher

Conference Diagnosis: Multiple sclerosis

Medical Literature Review - 5 December 1949

Subject: Management of Acute Myocardial Infarction

Presentation: Col. John G. Knauer

Remarks: The history of the development of the management of acute myocardial infarction was presented from 1908 to date. The points stressed in the management were: diagnosis, complete rest, and relief of pain. Other factors such as diet, when to increase activity, anticoagulants, oxygen, and the like were discussed and several schools of thought were presented.

Medical Staff Conference - 8 December 1949

Subject: Hypersplenism

Presentation: Capt. J. B. Crow

Remarks: The speaker discussed the concept of hypersplenism and contrasted the theories of Dameshek and Doan. He also emphasized the fact that hypersplenism can occur with all types of splenic enlargement and recommended splenectomy in these cases presenting hypersplenism when no contraindication existed.

Medical Diagnostic Conference - 10 December 1949

Case I - 442703 - Ward 22

Presentation: Capt. J. B. Crow

Conference Diagnosis: Almost everyone agreed that this was hysterical non-gaseous distention of the abdomen. However, there was some disagreement as to the origin of the disease. 25 members felt that it was psychiatric in origin and 12 felt that it was organic in origin.

Case II - 442215 - Ward 31

Presentation: Capt. H. L. Guard

Conference Diagnosis: Ehlers-Danlos syndrome

Medical Staff Conference - 15 December 1949

Subject: Intestinal Parasites

Presentation: Lt. Col. J. L. Tobin

Remarks: The speaker discussed intestinal parasites from the standpoint of "This Wormy World" pointing out that there are more cases of intestinal parasites than the world population because many individuals in endemic areas had multiple infestations. The clinical manifestations and some of the common parasites were discussed.

Medical Diagnostic Conference - 17 December 1949

Case I - VA 20086 - Ward 22

Presentation: Capt. J. B. Crow

Conference Diagnosis: The differential diagnosis included multiple sclerosis vs encephalitides (Von Economo type). Also discussed were Weil's disease, lead poisoning, porphyria, myasthenia gravis, meningitis, brain abscess, tuberculous meningitis, torula, tuberculoma, viral encephalitis, CNS lues, tumors, syringomyelia.

Case II - 442661 - Ward 28

Presentation: Major W. H. Westbrook

Conference Diagnosis: Sickle cell anemia

Case III - 437881 - Ward 28

Presentation: Major W. H. Westbrook

Conference Diagnosis: Addison's disease

Follow-up Case

433950 - Ward 22

Presentation: Capt. J. B. Crow

Conference Diagnosis: Polyarteritis nodosa

Medical Literature Review - 19 December 1949

Subject: Current Therapy in Dermatology

Presentation: Lt. Col. V. R. Hirschmann

Remarks: The speaker discussed the dermatologist's theory of skin diseases as contrasted to the general practitioner with emphasis on overtreatment but the latter as a major factor in the prolongation of dermatological diseases. The newer methods of treatment in dermatology were also discussed.

Monthly Staff Conference - 20 December 1949

Subject: Kidney Tumors: Diagnosis, Treatment and Prognosis

Presentation: Dr. Henry M. Spence

Remarks: Kidney tumors are of three types, (1) Wilm's, (2) pelvic, and (3) parenchymal. The most important signs and symptoms are hematuria and an abdominal mass. Prognosis is impossible.

SPECIAL TEACHING ASSEMBLIES, CONFERENCES, LECTURES, AND WARD ROUNDS

13th Annual International Post-graduate Medical Assembly of Southwest Texas  
25, 26, 27 January 1949  
San Antonio, Texas

Dr. George R. Herrmann - 28, 29 January 1949  
Professor of Medicine  
University of Texas, Medical Branch  
Galveston, Texas

Dr. Henry N. Leopold - 3 February 1949  
Civilian Consultant  
San Antonio, Texas

Dr. Garfield G. Duncan - 14, 15, 16, 17 February 1949  
Director of Medical Division, Pennsylvania Hospital  
Clinical Professor of Medicine, Jefferson Medical College,  
Philadelphia, Pennsylvania

Dr. George R. Herrmann - 25, 26 March 1949  
Professor of Medicine  
University of Texas, Medical Branch  
Galveston, Texas

82nd Annual Session of the State Medical Association of Texas  
3, 4, 5 May 1949  
San Antonio, Texas

Dr. George R. Herrmann - 27, 28 May 1949  
Professor of Medicine  
University of Texas, Medical Branch  
Galveston, Texas

Dr. Don W. Chapman - 14, 15, 16, 17 June 1949  
Assistant Professor of Medicine  
Baylor University, College of Medicine  
Houston, Texas

Dr. George R. Herrmann - 29, 30 July 1949  
Professor of Medicine  
University of Texas, Medical Branch  
Galveston, Texas

Dr. James A. Greene - 29, 30 August 1949  
Professor of Medicine  
Baylor University, College of Medicine  
Houston, Texas

Dr. Don W. Chapman - 29, 30 August 1949  
Assistant Professor of Medicine  
Baylor University, College of Medicine  
Houston, Texas

Dr. George R. Herrmann - 20, 21, 22 October 1949  
Professor of Internal Medicine  
University of Texas, Medical Branch  
Galveston, Texas

Dr. Rupert A. Willis - 25, 26, 27 and 29 October 1949  
Sir William H. Collins  
Professor of Human and Comparative Pathology  
Pathologist to the Royal Cancer Hospital  
London, England

6th Annual Tumor Seminar, San Antonio Society of Pathologists  
Brooke General Hospital, Fort Sam Houston, Texas  
29 October 1949

Dr. Rupert A. Willis, Sir William H. Collins  
Professor of Human and Comparative Pathology  
Pathologist to the Royal Cancer Hospital  
London, England

Lt. Colonel Ambrose Meneces, R. A. M. C. - 31 October 1949  
Reader in Tropical Medicine  
Royal Army Medical College  
London, England

Dr. Charles McKhann - 1, 2, 3 November 1949  
Director of Pediatrics, Babies and Childrens Hospital  
Western Reserve University, School of Medicine  
Cleveland, Ohio

Thadeus M. Koppa Memorial Tuberculosis Treatment Conference  
3, 4, 5 November 1949  
Heart O' the Hills Inn  
Hunt, Texas

13th ANNUAL INTERNATIONAL POST-GRADUATE  
MEDICAL ASSEMBLY OF SOUTHWEST TEXAS

25 January 1949

Morning Session

1. Functional Uterine Bleeding  
Dr. Richard Telinde, Baltimore, Md.
2. Diseases of the Biliary Tract  
Dr. Ray F. Farquharson, Toronto, Canada
3. Unusual Problems Encountered in the Diagnosis and Treatment of Acute Appendicitis  
Dr. R. Vincent Askey, Los Angeles, Calif.
4. Acute Abdomen in Children  
Dr. Jesus Lozoya, Mexico, D. F.
5. Pre and Postoperative Care of Surgical Patients  
Dr. Jonathan E. Rhoads, Philadelphia, Pa.

Afternoon Session

Clinical and Pathological Conference

Case No. 1:

Clinical Presentation: Dr. Ray F. Farquharson  
Discussion : Dr. Leon O. Jacobson  
Dr. F. Vincent Askey  
Dr. Robert R. Linton  
Dr. Jonathan E. Rhoads  
Pathological Findings: Dr. Frank W. Hartman

Case No. 2:

Clinical Presentation: Dr. Leon O. Jacobson  
Discussion : Dr. Ray F. Farquharson  
Dr. Robert Linton  
Dr. Jonathan E. Rhoads  
Dr. Paul C. Swenson  
Pathological Findings: Dr. Frank W. Hartman

26 January 1949

Morning Session

1. Chest Lesions Easily Confused With or Resembling Neoplasm  
Dr. Paul C. Swenson, Philadelphia, Pennsylvania
2. Chemotherapy in the Treatment of Neoplastic and Allied Disorders  
Dr. Leon O. Jacobson, Chicago, Ill.
3. The Treatment of Cancer Including Leukemia in Children With Chemotherapeutic Agents, With a Discussion of the Application to Cancer in Adults  
Dr. Sidney Farber, Boston, Massachusetts
4. The Results of Treatment of Sarcoma Primary in Bone  
Dr. C. Howard Hatcher, Chicago, Ill.
5. Bladder Cancer; Its Recognition and Management  
Dr. James C. Sargent, Milwaukee, Wisconsin

Afternoon Session  
Clinical and Pathological Conference

Case No. 3

Clinical Presentation: Dr. Ray F. Farquharson  
Discussion : Dr. Leon O. Jacobson  
Dr. Robert R. Linton  
Dr. Jonathan E. Rhoads  
Dr. C. Howard Hatcher  
Pathological Findings: Dr. Frank W. Hartman

Case No. 4:

Clinical Presentation: Dr. Jesus Lozoya  
Discussion : Dr. Leon O. Jacobson  
Dr. F. Vincent Askey  
Dr. Paul C. Swenson  
Dr. Ray F. Farquharson  
Pathological Findings: Dr. Sidney Farber

Case No. 5:

Clinical Presentation: Dr. Jonathan E. Rhoads  
Discussion : Dr. James C. Sargent  
Dr. Richard Telinde  
Dr. Robert R. Linton  
Dr. Leon O. Jacobson  
Pathological Findings: Dr. Frank W. Hartman

27 January 1949

Morning Session

1. Dangers and Defenses of Our Airways  
Dr. Ralph A. Fenton, Portland Ore.
2. Surgical Treatment of Hypertension  
Dr. James L. Poppen, Boston, Mass.
3. Thrombophlebitis, Phlebothrombosis, Pulmonary Embolism -  
Its Cause, Prevention, and Treatment  
Dr. Robert R. Linton, Boston, Mass.
4. Combined Liver Biopsy and Liver Function Study  
Dr. F. W. Hartman, Detroit, Michigan
5. Corneal Transplant Operations  
Dr. Jack S. Guyton, Baltimore, Md.

WARD ROUNDS, CLINICS AND LECTURES  
Dr. George R. Herrmann, Professor of Medicine  
University of Texas, Medical Branch  
at  
Brooke General Hospital  
28, 29 January 1949

Friday - 28 January 1949

0900 - 1200 Hours: Surgical Conference Room, Annex IV

Diseases of the Aorta and Aortic Valve

1. 426642 - Ward 21 - Aortitis, luetic  
Presentation: Major H. E. Ratcliffe
2. VA 15100 - Ward 21 - Aortic insufficiency, probably luetic  
Presentation: Major H. E. Ratcliffe
3. 426132 - Ward 21 - Aortic insufficiency, probably rheumatic  
Presentation: Lt. Col. T. D. Johnson
4. VA 14731 - Ward 21 - Aortic insufficiency, as residual of  
healed acute bacterial endocarditis  
Presentation: Major H. E. Ratcliffe
5. 426829 - Ward 21 - Subaortic stenosis, congenital  
Presentation: Major H. E. Ratcliffe

1300 - 1400 Hours: Auditorium, Annex IV

Lecture: Some Approaches to the Study of Atherosclerosis  
Presentation: Dr. George R. Herrmann

1400 - 1600 Hours: Surgical Conference Room, Annex IV

Diseases of the Coronary Vessels

1. VA 14595 - Ward 21 - Acute posterior wall myocardial  
infarction  
Presentation: Major H. E. Ratcliffe
2. VA 13948 - Ward 21 - Acute infarction with aneurysm of  
left ventricle  
Presentation: Lt. Col. T. D. Johnson
3. 427663 - Ward 21 - Acute anterior myocardial infarction in  
a 25 year old soldier  
Presentation: Major H. E. Ratcliffe
4. VA 14675 - Ward 21 - Coronary insufficiency  
Presentation: Major H. E. Ratcliffe
5. Presentation of post mortem specimen  
Anomalous left coronary artery arising from pulmonary  
artery  
Presentation: Lt. Col. T. W. Mattingly

Saturday - 29 January 1949

0900 - 1000 Hours: Surgical Conference Room, Annex IV

Interesting Medical Cases

1. 425329 - Ward 23 - Chronic nephritis

Presentation: Major C. J. Hornisher

2. 427972 - Ward 22 - Familial anemia

Presentation: Capt. E. M. Bralley

3. 426428 - Ward 27 - Traumatic arthritis

Presentation: Lt. R. G. Thompson

1000 - 1200 Hours: Medical Diagnostic Conference  
Auditorium, Annex IV

CARDIAC CLINIC  
Dr. Henry N. Leopold  
at  
Brooke General Hospital

3 February 1949

Thursday - 3 February 1949

0900 - 1200 Hours - Surgical Conference Room, Annex IV

1. 424835 - Ward 20 - Acute rheumatic fever, pericarditis  
Presentation: Capt. W. K. Hamilton
2. 423326 - Ward 23 - Acute rheumatic fever  
Presentation: Capt. W. K. Hamilton
3. 428409 - Ward 21 - Rheumatic cardiovascular disease,  
mitral stenosis and insufficiency  
Presentation: Lt. Col. T. D. Johnson
4. 428419 1/2 - Ward 8 - Rheumatic cardiovascular disease,  
mitral stenosis and insufficiency;  
auricular fibrillation and marked  
left auricular enlargement  
Presentation: Capt. W. K. Hamilton
5. VA 15310 - Ward 21 - Rheumatic heart disease; mitral  
insufficiency; acute right heart  
failure.  
Presentation: Major H. E. Ratcliffe
6. 428689 - Ward 21 - Rheumatic cardiovascular disease;  
mitral stenosis and insufficiency  
Presentation: Major H. E. Ratcliffe
7. VA 15083 - Ward 21 - Rheumatic cardiovascular disease;  
mitral stenosis and insufficiency.  
Subacute bacterial endocarditis;  
myocardial insufficiency  
Presentation: Lt. Col. T. D. Johnson
8. VA 14896 - Ward 21 - Rheumatic cardiovascular disease;  
mitral stenosis and insufficiency;  
aortic stenosis and insufficiency  
with repeated pulmonary infarction  
and failure.  
Presentation: Lt. Col. T. D. Johnson

METABOLIC DISEASE CLINICS AND LECTURES

Dr. Garfield G. Duncan

Director of Medical Division, Pennsylvania Hospital and  
Clinical Professor of Medicine, Jefferson Medical College  
Philadelphia, Pennsylvania

at

Brooke General Hospital  
14, 15, 16, 17 February 1949

Monday - 14 February 1949

0900 - 1200 Hours: Liver Disease - Ward 40 - Day Room

1. VA 15378 - Ward 23 - Infectious hepatitis  
Presentation: Major C. J. Hornisher
2. VA 15251 - Ward 23 - Infectious Hepatitis  
Presentation: Major C. J. Hornisher
3. VA 14772 - Ward 23 - Homologous serum hepatitis  
Presentation: Major C. J. Hornisher
4. 421520 - Ward 40 - Cirrhosis with hepatic failure  
Presentation: Lt. J. W. Payne
5. 424315 - Ward 40 - Cirrhosis with good response to therapy  
Presentation: Lt. Col. W. S. Bagnall
6. 419398 - Case Report - Cirrhosis (Laennec's) with good  
response to therapy by biopsy  
Presentation: Lt. Col. T. D. Johnson

1300 - 1600 Hours: Thyroid Diseases - Ward 40 - Day Room

1. 427795 - Ward 8 - Graves' disease  
Presentation: Capt. R. D. Wright
2. VA 15349 - Ward 28 - Thyrotoxicosis  
Presentation: Major T. W. Inmon
3. Out Patient - Exophthalmos following surgery  
Presentation: Capt. R. W. Holliday
4. Out Patient - Thyrotoxicosis and pregnancy  
Presentation: Capt. R. W. Holliday
5. Out Patient - Hyperthyroidism and hypertension  
Presentation: Capt. R. W. Holliday
6. 429429 - Ward 8 - Adenoma of thyroid (non-toxic)  
Presentation: Capt. R. D. Wright

Tuesday - 15 February 1949

0900 - 1200 Hours: Clinical Medicine - Ward 40 - Day Room

1. 425459 - Ward 22 - Lower nephron nephrosis  
Presentation: Capt. E. M. Bralley
2. 426767 - Ward 40 - Addison's disease  
Presentation: Major K. D. Orr
3. 428020 - Ward 8 - Simmond's disease  
Presentation: Capt. R. D. Wright
4. VA 15371 - Ward 21 - Obesity and hypertension  
Presentation: Lt. Col. T. D. Johnson

2000 Hours: BANC Officers Club

Lecture: Practical Considerations in the Management  
of Diabetes

Presentation: Dr. Garfield G. Duncan

Wednesday - 16 February 1949

0900 - 1200 Hours: Diabetes - Ward 40 - Day Room

1. VA 14825 - Ward 28 - Diabetes with peripheral neuropathy of both feet  
Presentation: Major T. W. Inmon
2. VA 15080 - Ward 28 - Diabetes with urinary infection  
Presentation: Major T. W. Inmon
3. 426767 - Ward 40 - Diabetes mellitus and hypertension  
Presentation: Lt. Col. W. S. Bagnall
4. VA 15199 - Ward 29 - Diabetes and tuberculosis  
Presentation: Major W. H. Westbrook
5. Out Patient - Diabetes and tuberculosis  
Presentation: Lt. Col. T. D. Johnson
6. Out Patient - Diabetes and hyperthyroidism  
Presentation: Major T. W. Inmon
7. 427245 - Ward 28 - Diabetes  
Presentation: Major T. W. Inmon
8. VA 15096 - Ward 28 - Diabetes (inability to appreciate problem)  
Presentation: Major T. W. Inmon
9. 427896 - Ward 28 - Diabetes  
Presentation: Major T. W. Inmon
10. VA 15201 - Ward 28 - Diabetes with bilateral pyelectasia  
Presentation: Major T. W. Inmon

Thursday - 17 February 1949

0900 - 1200 Hours: Diabetes - Ward 9 - Day Room

1. 413057 - Ward 9 - Diabetes with hemiplegia  
Presentation: Major T. S. Malinowski
2. 427791 - Ward 9 - Diabetes with diabetic neuropathy  
Presentation: Major T. S. Malinowski
3. 427798 - Ward 9 - Diabetes with ulcer of foot  
Presentation: Major T. S. Malinowski
4. Case Report - Hypoplasia of adrenal  
Presentation: Lt. Col. L. J. Geppert

1300 - 1400 Hours: Auditorium, Annex IV

Lecture: Infectious Hepatitis

Presentation: Dr. Garfield G. Duncan

CLINICS AND LECTURES IN INTERNAL MEDICINE

Dr. George R. Herrmann

Professor of Medicine

University of Texas, Medical Branch

at

Brooke General Hospital

25, 26 March 1949

Friday - 25 March 1949

0900 - 1145 Hours: Cardiac Arrhythmias - Auditorium, Annex IV

Supraventricular Tachycardias

1. Out Patient - Paroxysmal auricular tachycardia with spontaneous reversion to normal sinus rhythm. No evidence of organic heart disease.  
Presentation: Lt. Col. T. W. Mattingly
2. Out Patient - Repetitive paroxysmal supraventricular tachycardia with post-tachycardial electrocardiographic syndrome in patient with no other evidence of heart disease.  
Presentation: Lt. Col. T. W. Mattingly
3. VA 16016 - Ward 21 - Auricular flutter  
Presentation: Major H. E. Ratcliffe
4. VA 15023 - Ward 21 - Repeated attacks of supraventricular tachycardia and persistent abnormalities of the "P" waves.  
Presentation: Lt. Col. T. D. Johnson
5. VA 11903 - Ward 21 - Repeated attacks of paroxysmal auricular tachycardia in rheumatic heart disease.  
Presentation: Capt. W. K. Hamilton

Ventricular Tachycardias

6. 417268 - Ward 21 - Paroxysmal ventricular tachycardia in a case of Wolff-Parkinson-White syndrome.  
Presentation: Lt. Col. T. W. Mattingly
7. VA 10859 - Ward 21 - Ventricular tachycardia in acute  
VA 12141 - Ward 21 - myocardial infarction  
Presentation: Lt. Col. T. W. Mattingly
8. VA 16034 1/2 - Ward 21 - Supraventricular and ventricular tachycardia in an acute myocardial infarction  
Presentation: Lt. Col. T. D. Johnson

1300 - 1400 Hours: Auditorium, Annex IV

Lecture: Atherosclerosis

Presentation: Dr. George R. Herrmann

1400 - 1645 Hours: Auditorium, Annex IV

Clinical Presentation of Cases With Arteriosclerotic Heart Disease

1. 429431 - Ward 21 - Posterior myocardial infarction with paroxysmal bundle branch block.  
Presentation: Lt. Col. T. D. Johnson
2. 427814 1/2 - Ward 21 - Left bundle branch block and myocardial failure due to arteriosclerotic heart disease.  
Presentation: Lt. Col. T. D. Johnson
3. VA 15552 - Ward 21 - Left Ventricular aneurysm, cardiomegaly and chronic failure as residual of old myocardial infarction.  
Presentation: Major H. E. Ratcliffe
4. VA 15372 - Ward 21 - Massive anterior wall infarction with pericarditis  
Presentation: Lt. Col. T. D. Johnson

Saturday - 26 March 1949

0900 - 1000 Hours: Formal Ward Rounds - Ward 40, Annex IV

1000 - 1200 Hours: Medical Diagnostic Conference  
Auditorium, Annex IV

82nd ANNUAL SESSION OF THE  
STATE MEDICAL ASSOCIATION OF TEXAS  
3, 4, 5 May 1949

Tuesday - 3 May 1949

Morning Session

1. The Human Side of Medicine  
Presentation: W. L. Pressly, MD, Due West, S.C.
2. Recent Advances in the Chemical Supportive Therapy of Trauma With Special Reference to Burns and Peritonitis  
Carl A. Moyer, MD, Dallas, Texas
3. Diabetes Mellitus  
Cecil Striker, MD, FACP, Cincinnati, Ohio
4. The Responsibility of the Pathologist in the Diagnosis and Treatment of Cancer  
Presentation: Lauren V. Ackerman, MD, St. Louis, Mo.

Afternoon Session

1. Nitrogen Mustard in Treatment of Leukemias  
William Levin, Galveston
2. Veratrum Veride in Treatment of Essential Hypertension  
Presentation: A. Ruskin, Galveston
3. Mechanism and Management of Edema  
Presentation: G. R. Herrmann, Milton R. Hejtmancik, J. W. Chris, E. H. Schwab and P. M. Sims, Galveston
4. Prevention and Correction of Deformities in Rheumatoid Arthritis  
Presentation: W. Paul Holbrook, MC, FACP, Tucson, Ariz.
5. Diagnostic Problems of Asthma  
Presentation: J. Harvey Black, Dallas
6. Mediastinal Emphysema; Report of 3 cases  
Presentation: Fylie F. Creel, Austin
7. Penicillin Aerosol Therapy  
Archie Y. Eagles, Texarkana
8. Evaluation of Gastroscopy  
Presentation: Cecil O. Patterson, Dallas

Wednesday - 4 May 1949

Morning Session

1. Hyperventilation  
John P. Mast, Wichita Falls
2. Psychiatric Aspects of Rehabilitation  
Presentation: Don P. Morris, Dallas
3. Generalized Late Cutaneous Syphilids  
Presentation: John H. Harris, Leonard Meltzer, Houston
4. Haverhill Fever (Erythema Arthriticum Epidermicum); Report of Case With Necropsy Findings  
R. A. Morse and J. A. Greene, Houston
5. Scleroderma: Study of Two Cases  
David R. Sacks, San Antonio

6. Inter-capillary Glomerular Sclerosis (Kimmel-Steil-Wilson syndrome)  
Cecil Striker, MD, FACP, Cincinnati, Ohio
7. Myasthenia Gravis  
Presentation: J. A. Rider and Charles T. Stone, Galveston
8. Advances in Diseases of the Adrenal Cortex  
Presentation: Raymond Gregory, Galveston

#### Afternoon Session

1. Problem of Arthritis and Rheumatism  
W. Paul McIlbrack, MD, FACP, Tucson, Ariz.
2. Certain Modern Basic Concepts of Poliomyelitis  
Gaylord W. Anderson, MD, Minneapolis, Minn.
3. Modern Treatment of Meningitis  
Archibald L. Hoyne, MD, Chicago, Ill.

Thursday - 5 May 1949

#### Morning Session

1. Bronchiectasis  
Presentation: John S. Harter, MD, Louisville, Ky
2. Vaginal Cytology in Cancer Control Program  
Willis E. Brown, MD, FACS, Little Rock, Arkansas
3. Surgical Treatment of Peptic Ulcer  
Samuel F. Marshall, MD, Boston, Mass.
4. Diaphragmatic Hernia  
B. R. Kirklin, MD, Rochester, Minn.
5. Intracranial Complications of Otogenic and Rhinogenic Disease  
Presentation: Charles J. Johnson, MD, Boston, Mass.

#### Afternoon Session

1. The Specialty Movement and Its Effect on American Medicine  
B. R. Kirklin, Rochester, Minn.
2. Present Treatment of Carcinoma of the Breast  
Samuel F. Marshall, Boston, Mass.
3. Diabetes Detection Drive  
Cecil Striker, Cincinnati, Ohio
4. Carcinoma of the Esophagus  
John S. Harter, Louisville, Ky
5. Present Status of the Fenestration Operation  
Charles I. Johnson, Boston, Mass.
6. Diagnosis and Treatment of Soft Tissue Sarcomas  
Lauren V. Ackerman, St. Louis, Mo.
7. Rural Medical Care  
Presentation: W. L. Presley, Due West, S.C.
8. Whither Public Health?  
Presentation: Gaylord W. Anderson, Minneapolis, Minn.
9. Care of Communicable Diseases in a General Hospital  
Presentation: Archibald L. Hoyne, Chicago, Ill.
10. Complications of Parenteral Fluid Therapy  
Carl A. Moyer, Dallas, Texas

CLINICS AND LECTURES  
Dr. George R. Herrmann  
Professor of Internal Medicine  
University of Texas, Medical Branch  
at  
Brooke General Hospital  
27 and 28 May 1949

Friday - 27 May 1949

0900 - 1200 Hours - Ward Rounds - Surgical Conference Room, Annex IV

1. VA 16490 - Ward 21 - Rheumatic heart disease with mitral stenosis and regurgitation and possible active carditis  
Presentation: Major W. H. R. Croskery
2. 432792 - Ward 21 - Active rheumatic fever - Wandering pacemaker  
Presentation: Capt. R. D. Wright
3. VA 16853 - Ward 21 - Supraventricular tachycardia of unknown etiology  
Presentation: Capt. R. D. Wright
4. VA 16531 - Ward 21 - Hypertensive cardiovascular disease. Cardiac insufficiency. Auricular fibrillation  
Presentation: Major W. H. R. Croskery
5. VA 16930 - Ward 21 - Hypertensive cardiovascular disease. Cardiac insufficiency. Auricular fibrillation. Pres: Capt. R. D. Wright
6. 428695 - Ward 21 - Hypertensive vascular disease, mild, possibly nephritic in origin  
Presentation: Major W. H. R. Croskery

1430 - 1600 Hours - Lecture in Electrocardiography

Presentation: Dr. George R. Herrmann  
Auditorium, Annex IV

Saturday - 28 May 1949

1000 - 1200 Hours - Medical Diagnostic Conference  
Auditorium, Annex IV

CLINICS AND LECTURES IN INTERNAL MEDICINE

Dr. Don W. Chapman

Assistant Professor of Medicine

Baylor University, College of Medicine

at

Brooke General Hospital

14, 15, 16, 17 June 1949

Tuesday - 14 June 1949

0930 - 1200 Hours - Clinical presentation of peripheral vascular diseases, Surgical Conference Room, Annex IV

1. VA 16565 - Ward 21 - Aneurysm of the thoracic aorta  
Presentation: Major W. H. R. Croskery
2. VA 16872 - Ward 21 - Aneurysm of thoracic aorta  
Presentation: Capt. R. D. Wright
3. 433991 - Ward 40 - Traumatic A-V fistula, left femoral artery and vein  
Presentation: Major W. H. Westbrook
4. 433985 - Ward 40 - Thromboangiitis obliterans  
Presentation: Major W. H. Westbrook
5. VA 17057 - Ward 21 - Recurrent phlebitis. Hemorrhage due to over dosage of dicumarol  
Presentation: Capt. R. D. Wright
6. VA 15578 - Ward 21 - Chronic thrombophlebitis  
Presentation: Capt. R. D. Wright
7. VA 17228 - Ward 21 - Coarctation of the aorta  
Presentation: Major W. H. R. Croskery

1400 - 1500 Hours - Clinic-pathological Conference  
Auditorium, Annex IV

Wednesday - 15 June 1949

0830 - 1000 Hours - Gastroscopy Clinic  
Room 230, Annex IV

1000 - 1200 Hours - Clinical Presentation of Neurological Cases  
Surgical Conference Room, Annex IV

1. 432620 - Ward 36 - Arterial aneurysm of Circle of Willis  
Presentation: Major T. W. Inmon
2. VA 16875 - Ward 33 - Tumor of third ventricle  
Presentation: Major T. W. Inmon
3. 433613 - Ward 37 - Possible tumor of cervical cord  
Presentation: Major T. W. Inmon
4. VA 16693 - Ward 37 - Anterior horn lesion, C-5, right  
Presentation: Major T. W. Inmon

Thursday - 16 June 1949

0930 - 1200 Hours - Ward Rounds - Ward 21, Annex IV

1300 - 1400 Hours - Lecture, Auditorium, Annex IV

Cardiac Catheterization

Presentation: Dr. Don W. Chapman

1400 - 1700 Hours - Congenital Heart Clinic, Cardiac Clinic, Annex IV

1. 432065 - Ward 5 - Patent ductus arteriosus, subacute bacterial endocarditis
2. Out Patient - A-V fistula (pulmonary) operated
3. Out Patient - Tetralogy of Fallot - operated
4. Out Patient - Anomalous coronary artery
5. 434029 - Ward 60-A - Cyanotic group, probably (1) Cor triloculare biatrium, absence or narrowing of pulmonary artery, (2) Cor triloculare biventricularis, transposition of vessels, pulmonary atresia.
6. Out Patient - Patent ductus arteriosus - operated, large ductus ligated. Associated ventricular septal defect.
7. Out Patient - Patent ductus arteriosus - operated
8. 426829 - Ward 21 - Congenital heart disease. Congenital aortic stenosis.
9. Out Patient - Tentative diagnosis: Eisenmenger's complex
10. Out Patient - Congenital heart disease. Cyanotic group
11. Out Patient - Congenital heart disease. Cyanotic group

WARD ROUNDS, CLINICS AND LECTURES  
Dr. George R. Herrmann  
Professor of Medicine  
University of Texas, Medical Branch  
at  
Brooke General Hospital  
29, 30 July 1949

Friday - 29 July 1949

0900 - 1200 Hours: Auditorium, Annex IV

Clinic on Pericarditis

1. Brief discussion of the etiology, symptomatology and findings including electrocardiographic findings and differential diagnosis.  
Presentation: Colonel T. W. Mattingly
2. Presentation of cases of pericarditis due to rheumatic fever, lupus erythematosus, traumatic pericarditis, pericarditis associated with myocardial infarction, pericarditis simulating myocardial infarction, pericarditis simulating acute abdominal conditions and benign idiopathic pericarditis.

1. 419570 - Ward 27  
Presentation: Major W. H. Westbrook
2. VA 14834 - Ward 21  
Presentation: Major W. H. Westbrook
- 3.. 418040 - Ward 21  
Presentation: Colonel T. W. Mattingly
4. 417877 - Ward 21  
Presentation: Colonel T. W. Mattingly
5. 415384 - Ward 29  
Presentation: Colonel T. W. Mattingly
6. 419968 - Ward 21  
Presentation: Colonel T. W. Mattingly
7. 415069 - Ward 9  
Presentation: Colonel T. W. Mattingly
8. VA 16297 - Ward 6  
Presentation: Colonel T. W. Mattingly
9. 428066 - Ward 21  
Presentation: Colonel T. W. Mattingly
10. VA 17553 - Ward 21  
Presentation: Capt. E. M. Bralley
11. VA 15478 - Ward 21  
Presentation: Colonel T. W. Mattingly
12. 434227 - Ward 40  
Presentation: Lt. Col. W. R. Cook
13. VA 17691 - Ward 21  
Presentation: Capt. E. M. Bralley
14. 436154 - Ward 26  
Presentation: Major T. W. Inmon

3. Discussion of pericarditis associated with atypical pneumonias.  
Brief discussion and presentation of cases and preliminary  
report of special studies of pericarditis in this hospital.  
Presentation: Major T. W. Inmon

4. Discussion by Dr. George R. Herrmann

1400 - 1500 Hours: Auditorium, Annex IV

Lecture - Diagnosis and Treatment of Peripheral Vascular Diseases  
Presentation: Dr. George R. Herrmann

Saturday - 30 July 1949

1000 - 1200 Hours: Auditorium, Annex IV  
Medical Diagnostic Conference

WARD ROUNDS, CLINICS AND LECTURES  
Dr. James A. Greene, Professor of Medicine  
and  
Dr. Don W. Chapman, Assistant Professor of Medicine  
Baylor University, College of Medicine  
at  
Brooke General Hospital  
Fort Sam Houston, Texas  
29 and 30 August 1949

Monday - 29 August 1949

0900 - 1200 Hours - Ward 25, Annex IV

1. 436109 - Ward 25  
Laennec's cirrhosis  
Presentation: Lt. R. E. Yarbrough
2. 437002 - Ward 25  
Chronic pancreatitis  
Presentation: Major H. E. Ratcliffe
3. VA 17799 - Ward 25  
Duodenal ulcer, osteomyelitis, possible diabetes mellitus  
Presentation: Major H. E. Ratcliffe
4. VA 16300 - Ward 25  
Chronic hepatitis, post-splenectomy  
Presentation: Major H. E. Ratcliffe
5. 437318 - Ward 40  
Exophthalmos, etiology unknown  
Presentation: Lt. Col. T. D. Johnson
6. VA 18413 - Ward 40  
Peptic ulcer  
Presentation: Lt. J. B. Crow

1330 - 1630 Hours - Ward 23, Annex IV

1. VA 18079 - Ward 24  
Schonlein's purpura  
Presentation: Capt. H. M. Cook
2. 437455 - Ward 22  
Hemochromatosis  
Presentation: Major G. H. Montgomery
3. 437785 - Ward 24  
Rheumatoid arthritis  
Presentation: ROTC V. B. Smith
4. VA 18177 - Ward 24  
Emphysema and marked weight loss  
Presentation: Lt. D. J. Jacobson
5. 433950 - Ward 22  
Periarteritis nodosa  
Presentation: Lt. C. E. Gahagen
6. 437186 - Ward 22  
Amebic abscess  
Presentation: ROTC R. A. Irwin

Tuesday - 30 August 1949

0900 - 1200 Hours - Ward 21

1. VA 18374 - Ward 21  
Possible pheochromocytoma  
Presentation: Major W. H. Westbrook
2. 437445 - Ward 21  
Pericarditis, non-specific vs rheumatic etiology  
Presentation: Major W. H. Westbrook
3. 435773 - Ward 21  
Myocarditis complicating virus pneumonia  
Presentation: Major W. H. Westbrook
4. 437130 - Ward 37  
Bundle branch block due to luetic aortic involvement  
Presentation: Lt. J. B. Trotzic
5. 437229 - Ward 21  
Possible interventricular septal defect  
Presentation: Capt. E. M. Bralley
6. 437878 - Ward 21  
Rheumatic heart disease, active with mitral stenosis  
Presentation: Capt. E. M. Bralley

CLINICS AND LECTURES IN INTERNAL MEDICINE

Dr. George R. Herrmann  
Professor of Internal Medicine  
University of Texas, Medical Branch  
at  
Brooke General Hospital  
Fort Sam Houston, Texas  
20, 21, 22 October 1949

Thursday - 20 October 1949

1030 - 1200 Hours: Surgical Conference Room, Room 228, Annex IV

1. 435773 - Ward 21  
Virus pneumonia with myocarditis  
Presentation: Capt. W. C. Winter
2. VA 18846 - Ward 21  
Luetic aortitis with regurgitation and abnormal  
electrocardiograms  
Presentation: Lt. R. H. Howland
3. 440082 - Ward 21  
Acute pericarditis with effusion, idiopathic  
Presentation: Major G. H. Montgomery

Friday - 21 October 1949

1030 - 1200 Hours: Surgical Conference Room, Room 228, Annex IV

1. 438840 - Ward 21  
Anterior myocardial infarction  
Presentation: Capt. W. C. Winter
2. 440494 - Ward 21  
Buerger's disease with old posterior myocardial infarction  
Presentation: Major G. H. Montgomery
3. VA 19030 - Ward 21  
Multiple myocardial infarction  
Presentation: Lt. R. H. Howland

1330 - 1500 Hours: Surgical Conference Room, Room 228, Annex IV

1. 439629 - Ward 21  
Rheumatic valvular disease  
Presentation: Major G. H. Montgomery
2. 440381 - Ward 21  
Aortic valvular disease with bizarre QRS complexes  
Presentation: Lt. R. H. Howland
3. VA 17828 - Ward 21 (Deceased)  
Medical Diagnosis: Rheumatic myocarditis and valvulitis  
Presentation: Capt. W. C. Winter

Saturday - 22 October 1949

1000 - 1200 Hours: Auditorium, Annex IV  
Medical Diagnostic Conference

LECTURES AND CONFERENCES IN PATHOLOGY  
Dr. Rupert A. Willis  
Sir William H. Collins  
Professor of Human and Comparative Pathology  
and  
Pathologist to the Royal Cancer Hospital  
London, England  
at  
Brooke General Hospital  
Fort Sam. Houston, Texas  
25, 26, 27, and 29 October 1949

Tuesday - 25 October 1949

1300 Hours: Auditorium, Annex IV  
Clinicopathologic Conference

1400 Hours: Auditorium, Annex IV  
Tumor Board

2000 Hours: BAMC Officers Club  
Lecture: Diagnostic Errors Caused by Metastatic Tumors

Wednesday - 26 October 1949

1300 Hours: Auditorium, Annex IV  
Lecture: Embryological Principles in Pathology,  
Lecture I

Thursday - 27 October 1949

1300 Hours: Auditorium, Annex IV  
Lecture: Embryological Principles in Pathology,  
Lecture II

Saturday - 29 October 1949

0930 - 1200 Hours: Sixth Annual Tumor Seminar  
San Antonio Society of Pathologists  
Auditorium, Annex IV

1330 - 1700 Hours: Sixth Annual Tumor Seminar  
San Antonio Society of Pathologists  
Auditorium, Annex IV

THADDEUS M. KOPPA  
Memorial Tuberculosis Treatment Conference  
Heart O' the Hills INN  
3, 4, and 5 November 1949

Thursday - 3 November 1949

- 0900 - 0915 Hours: Background and Aim of Conference  
John B. Barnwell, M.C. Chief, Tuberculosis  
Division, Veterans Administration Central Office,  
Washington, D. C.
- 0915 - 1045 Hours: Fifteen Consecutive Admissions  
Presentation: G. D. Guilbert, M.C., Chief  
Tuberculosis Service, Veterans Administration  
Hospital, Kerrville, Texas
- 1045 - 1215 Hours: Fifteen Consecutive Admissions  
Presentation: John W. Middleton, M.D.,  
Assistant Professor of Medicine, University  
of Texas, Medical Branch, Galveston, Texas
- 1330 - 1500 Hours: Fifteen Consecutive Admissions  
Presentation: R. E. Pleune, M.D., Chief  
Tuberculosis Service, Veterans Administration  
Hospital, Temple, Texas
- 1500 - 1630 Hours: Fifteen Consecutive Admissions  
Presentation: John Seabury, M.D., Associate  
Professor of Medicine, Louisiana State Univer-  
sity, School of Medicine, New Orleans, La.  
Tuberculosis Service, Charity Hospital
- 2000 Hours: Lecture  
Segmental Resection in Tuberculosis  
Presentation: J. Maxwell Chamberlain, M.C.  
New York City, N.Y.  
Chief of Thoracic Surgery,  
Pack Medical Group

Friday - 4 November 1949

- 0900 - 1030 Hours: Fifteen Consecutive Admissions  
Presentation: Shea Halle, M.D.  
Veterans Administration Hospital, New Orleans,  
Louisiana
- 1030 - 1200 Hours: Fifteen Consecutive Admissions  
Presentation: Ray H. Biggs, M.D., Assistant  
Superintendent, Mississippi State Sanatorium,  
Sanatorium, Mississippi
- 1330 - 1500 Hours: Fifteen Consecutive Admissions  
Presentation: Daniel E. Jenkins, M.D.  
Department of Internal Medicine, Baylor  
University, College of Medicine, Houston, Texas,  
Houston Tuberculosis Hospital
- 1500 - 1630 Hours: Fifteen Consecutive Admissions  
Presentation: Major Laurence M. Hursh, M.C.  
Assistant Chief of Medical Service  
Senior Resident, Internal Medicine  
Brooke General Hospital, Fort Sam Houston, Texas

Saturday - 5 November 1949

0900 - 1030 Hours: Fifteen Consecutive Admissions  
Presentation: Rodger G. Smith, M.D.  
Assistant Superintendent, State Sanatorium,  
Sanatorium, Texas

1030 - 1200 Hours: Fifteen Consecutive Admissions  
Presentation: Franz Reichsman, M.D.  
Chief, Tuberculosis Service, Veterans Administration  
Hospital, McKinney, Texas

# COMPLETE INDEX TO VOLUMES I, II, and III

	*	**	***	
Abdomen, distention of	III	26	10 Dec	49
Abdominal mass	I	30	1 Feb	47
Abdominal pain	I	40	6 Sep	47
Abnormal involuntary movements and disorders of coordination	II	26	23 Dec	48
Abscess				
Anebic	III	46	29 Aug	49
Anebic liver	I	33	2 Apr	47
	I	5	8 Mar	47
	III	3	12 Mar	49
Appendiceal	III	3	5 Feb	49
Brain	II	30	9 Jan	48
Epidural	II	19	11 Sep	48
Liver	I	36	26 Jul	47
	III	16	27 Aug	49
	III	17	27 Aug	49
Lung	II	8	3 May	48
Lung, suppurative	II	23	6 Nov	48
Perirenal and appendiceal with septicemia	II	11	5 Jun	48
Recurrent, of psoas muscle	II	6	20 Mar	48
Subhepatic	II	29	7 Jan	48
Subphrenic and liver	II	42	11 Nov	48
Acidosis, management of	I	14	14 Jul	47
Acrosclerosis	III	10	21 May	49
Acute abdomen in children	III	30	25 Jan	49
Adaptation syndrome	I	3	4 Feb	47
	III	7	7 Apr	49
Addison's disease	I	36	25 Jul	47
	I	6	5 Apr	47
	I	8	19 Apr	47
	II	18	28 Aug	48
	III	35	15 Feb	49
	III	26	17 Dec	49
Adenoma				
Chromophobe of pituitary	II	30	9 Jan	48
Kidney	II	9	15 May	48
Thyroid	III	35	14 Feb	49
Adrenal cortex, advances in diseases of	III	40	4 May	49
Adrenal cortex, disease of in infancy and childhood	III	23	22 Nov	49
Adrenal gland, diseases of	III	11	2 Jun	49
Adrenal insufficiency	III	23	12 Nov	49
Adrenal physiology, normal and abnormal	I	9	5 May	47
Adrenogenital syndrome	II	17	21 Aug	48
	II	38	26 Aug	48
Agranulocytosis	I	18	2 Sep	47
	I	18	9 Sep	47
Aircrew maintenance: problem of aviation preventive med	II	42	12 Nov	48
Albright-Butler syndrome	III	22	2 Nov	49
Alcoholic liver	I	36	25 Jul	47
Alkaptonuria	III	10	14 May	49

\* Volume

\*\* Page

\*\*\* Date

	*	**	***	
Allergic reaction set up by pertussis vaccine	III	6	2 Apr	49
Allergy				
Advances in	I	15	29 Jul	47
Intestinal	II	19	11 Sep	48
Alopecia	II	13	19 Jun	48
	III	7	16 Apr	49
Amoebiasis	I	30	3 Feb	47
	I	36	26 Jul	47
Intestinal	II	2	23 Jan	48
Amoebic liver disease	II	13	26 Jun	48
Amylod disease	II	20	20 Sep	48
Amylodosis	I	39	5 Sep	47
Anasarca	I	30	3 Feb	47
Anemia	II	30	9 Jan	48
Aplastic	II	9	8 May	48
	I	7	12 Apr	47
	III	11	28 May	49
	III	5	12 Mar	49
Classification	I	20	23 Sep	47
Diagnosis and treatment of	II	33	5 Feb	48
Due to iron deficiency	II	7	3 Apr	48
	III	8	23 Apr	49
Familial	III	33	29 Jan	49
Familial hemolytic without spherocytosis	II	23	18 Nov	48
Hemolytic	II	13	1 Jul	48
	II	14	8 Jul	48
	I	36	26 Jul	47
	III	20	15 Oct	49
Hemolytic, acquired	III	25	3 Dec	49
Hemolytic, secondary to lymphosarcoma	II	33	5 Feb	48
Hemolytic, without spherocytosis	II	33	5 Feb	48
Hypochromic	II	7	17 Apr	48
	III	10	21 May	49
Hypochromic, idiopathic	I	20	30 Sep	47
Mediterranean	I	20	30 Sep	47
Mediterranean and pernicious	II	22	19 Oct	48
Myeloblastic	II	21	16 Oct	48
Nutritional	I	10	24 May	47
	III	6	2 Apr	49
Nutritional macrocytic	II	15	24 Jul	48
Pernicious	I	13	5 Jul	47
Pernicious with splenomegaly and target cells	II	33	5 Feb	48
Sickle cell	I	20	30 Sep	47
	III	15	30 Jul	49
	III	26	17 Dec	49
Splenic and hemolytic, acquired and congenital	I	23	14 Oct	47
Aneurysm	I	35	23 Jul	47
Aortic	I	6	1 Apr	47
	II	29	6 Jan	48
Aortic possibly syphilitic	II	2	23 Jan	48
Cerebral congenital	III	17	3 Sep	49
Circle of Willis	I	17	23 Aug	47
	III	42	15 Jun	49
Common iliac vein	III	21	22 Oct	49
Dissecting, of abdominal aorta	II	34	20 Apr	48

Aneurysm	*	**	***	
Left ventricle, with post coronary occlusion	I	24	18	Oct 47
Myotic, possible, of interventricular septum	II	3	14	Feb 48
or aneurysm between the greater and lesser				
circulation at the base of the heart.				
Pulmonary arteriovenous	I	3	15	Feb 47
	I	8	19	Apr 47
	II	12	12	Jun 48
Thoracic aorta	III	42	14	Jun 49
Vertebral artery	I	9	17	May 47
Angina pectoris	I	33	1	Apr 47
	I	8	19	Apr 47
	I	5	15	Mar 47
	I	6	29	Mar 47
With acute cholecystitis	II	21	9	Oct 48
Anginal syndrome	II	39	2	Sep 48
Ankle edema	I	40	6	Sep 47
Anorexia nervosa	I	27	6	Dec 47
	II	9	8	May 48
	II	29	7	Jan 48
	III	6	19	Mar 49
	III	12	18	Jun 49
	III	24	19	Nov 49
Anterior horn lesion	III	42	15	Jun 49
Antibiotics, progress in	III	15	11	Aug 49
Antibiotic therapy, current indications for	III	19	20	Sep 49
Anticoagulant agents	I	7	15	Apr 47
Anuria	I	1	28	Jan 47
Reflex unilateral	II	17	14	Aug 48
Aorta and aortic valve, diseases of	III	32	28	Jan 49
Aortic valvular disease	I	36	26	Jul 47
	II	34	20	Apr 48
	III	48	21	Oct 49
Aortitis, luetic	III	47	30	Oct 49
Application of physical medicine	III	8	18	Apr 49
Aralon in malaria in 200 cases	I	4	22	Feb 47
Arrhythmia	III	6	16	Mar 48
	II	34	20	Apr 48
Cardiac	II	12	8	Jun 48
Arteriosclerosis	III	3	29	Jan 49
Cerebral	II	3	31	Jan 48
Popliteal	II	39	2	Sep 48
Arthritis pain in chest	I	30	3	Feb 47
Arthritis				
Gonorrheal	I	40	5	Sep 47
Marie-Strumpel	I	40	5	Sep 47
Rheumatoid	I	35	23	Jul 47
	I	40	5	Sep 47
	I	3	8	Feb 47
	I	11	7	Jun 47

Buerger's disease	II	34	20	Apr 48
	III	48	20	Oct 49
Treatment and pathogenesis	I	13	1	Jul 47
Bundle branch block	I	11	14	Jul 47
	III	47	30	Aug 49
In young individuals	II	41	4	Nov 48
Burns, early treatment	II	32	29	Jan 48
Calcium and phosphorus metabolism	III	16	15	Aug 49
Calcium and phosphorus regulation	I	3	11	Feb 47
Carcinoma				
Bladder, with metastases to liver, lungs	II	4	21	Feb 48
heart and skin	II	10	15	May 48
Bronchogenic	I	38	4	Sep 47
	I	26	29	Nov 47
	II	18	2	Sep 48
	III	6	24	Mar 49
Bronchogenic with generalized metastases	II	4	21	Feb 48
Bronchogenic with superior vena caval obstruction	II	3	7	Feb 48
Colon	II	8	24	Apr 48
	III	8	23	Apr 49
Esophagus	III	40	5	May 49
Gastric	III	3	5	Feb 49
Liver	II	37	26	Aug 48
Lung	I	9	3	May 47
	II	12	12	Jun 48
	III	4	19	Feb 49

Carcinoma				
Metastatic, of chest	I	37	3 Sep	47
Oral pharynx	II	25	11 Dec	48
Possible renal with cerebral and pulmonary metastases	II	38	27 Aug	48
Primary of lung	II	6	27 Mar	48
Primary large bowel, pancreatic or renal cell with metastases to lung and brain	II	16	7 Aug	48
Renal	I	23	11 Oct	47
Signoid	II	1	10 Jan	48
Stomach	III	19	24 Sep	49
Testicle	II	20	2 Oct	48
Thyroid	III	9	3 May	49
Cardiac catheterization	I	36	26 Jul	47
